

COPE Health Solutions Closes \$7.5 Million Series A Funding

Leading technology-enabled products and services firm helps health care providers and payers succeed with population health management and value-based payments

NEW YORK, NY, April 19, 2022—[COPE Health Solutions](#) is pleased to announce it has closed its Series A funding, raising \$7.5 million. Investors include global technology giant and digital partner Mindtree and New York based MSO Solutions 4 Community Health.

“Both payers and providers are facing both a steep learning curve and accelerated pace of change in the shift to population health management and risk-based payments. This financing helps us scale and deepen the value we bring to current and new clients as they transform their organizations, technologies and cultures to improve care, costs and outcomes,” said Allen Miller, founder and CEO of COPE Health Solutions.

COPE Health Solutions plans to use the funding round to expand the capabilities of its Analytics for Risk Contracting (ARC) population health analytics platform, purpose built to support payers and providers in risk arrangements, as well as enhance: the scalability of COPE Health Solutions’ Network Adequacy, Analytics & Build; Financial Modeling & Management; and Managed Services Organization (MSO) co-source, all of which leverage the ARC platform.

In parallel the firm intends to build out the underlying technology platform for its fast-growing workforce development products and services, bringing rapid and highly adaptable solutions for recruiting, training, retaining and growing medical assistants, advanced practice providers, care navigators and other in-demand positions facing national shortages.

In addition to its financial investment, Mindtree is collaborating with COPE Health Solutions on further development of the ARC platform and complementary digital solutions. “Our investment and development efforts with COPE Health Solutions represent a unique opportunity to leverage our complementary strengths and expertise to create new solutions that advance interoperability, personalized health care, and value-based models,” said Venu Lambu, Mindtree’s Executive Director and President, Global Markets.

[COPE Health Solutions](#) is a national tech-enabled products and services firm, with a population health management analytics subsidiary – Analytics for Risk Contracting (ARC), collaboratively implementing proven products with payer and provider clients to power success in risk arrangements and development of the future workforce. Our multidisciplinary team provides payers and providers with the experience, capabilities and tools needed to plan for, design, implement and support strategy development and execution. We are driven by our passion to help transform healthcare delivery, align financial incentives to support population health management and build the workforce needed for value-based care.
